

CHARLES PRABHAKARAN S

Full Stack Developer | Backend Developer | Frontend Developer

+91 80560 44498 | charlesprabha93@gmail.com | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Computer Science graduate (B.E. 2025, CGPA 7.80) with internship experience in Full Stack Development. Proficient in Java, Spring Boot, RESTful APIs, JPA/Hibernate, and MySQL for backend. Skilled in HTML5, CSS3, JavaScript (ES6), and React.js (Basics) for frontend. Built real-world projects including a Job Portal and Student Management System. Experienced in MVC architecture, Agile practices, and clean code standards. Seeking entry-level roles in Full Stack, Backend, or Frontend development.

TECHNICAL SKILLS

Backend	Java (Core, OOP, Collections, Multithreading), Spring Boot, Spring MVC, RESTful APIs, JPA, Hibernate
Frontend	HTML5, CSS3, JavaScript (ES6), React.js (Basics), Responsive Web Design
Database	MySQL, PL/SQL, CRUD Operations, ORM, Database Integration
Tools	IntelliJ IDEA, Eclipse, Postman, Git, VS Code
Concepts	MVC Architecture, REST API Design, OOP, SDLC, Agile/Scrum, Debugging, Problem Solving

INTERNSHIP EXPERIENCE

Full Stack Development Intern — HD Softsystems, Chennai

- Built full stack web applications using Java, Spring Boot (backend) and HTML5, CSS3, JavaScript (frontend).
- Designed RESTful APIs with proper HTTP methods, status codes, and JSON response handling.
- Integrated MySQL database using JPA/Hibernate; implemented efficient queries and relational data models.
- Performed CRUD operations and validated end-to-end application flow through manual testing.
- Followed Agile/Scrum — sprint planning, daily standups, and code reviews with senior developers.

PROJECTS

Job Portal Application [Spring Boot · HTML5 · CSS3 · JavaScript · MySQL]

- Full stack portal connecting job seekers and recruiters with role-based authentication and dashboards.
- Built RESTful APIs for user registration, job posting, search, and application management modules.
- Responsive frontend with HTML5/CSS3/JS; resume screening and recruiter panel via Spring MVC backend.

Student Management System [Java · Spring Boot · MySQL · JPA/Hibernate]

- CRUD backend system for managing students, courses, and enrollments with structured REST APIs.
- Used JPA/Hibernate for ORM, input validation, exception handling; tested all APIs via Postman.

Fraud Detection in Credit Card Transactions [Python · ML · Scikit-learn]

- Trained Logistic Regression and Random Forest models for fraud detection with class imbalance handling.
- Evaluated using precision, recall, F1-score, and confusion matrix for production-level reliability.

EDUCATION

B.E. – Computer Science and Engineering

2021 – 2025

Meenakshi College of Engineering, Chennai | CGPA: **7.80 / 10.0**

STRENGTHS & LANGUAGES

Fast Learner | Team Collaboration | Problem Solving | Attention to Detail | Languages: Tamil (Native), English (Professional)
